

Agenda at a Glance

AFRICA COM

The future of African telecoms, connectivity, digital infrastructure and media.

AfricaCom Centre Stage

Learn from experts on how connectivity will drive media, broadcast and entertainment

Telcos of Tomorrow

Dive deep into how strategy, regulation, and emerging tech will revolutionize the future of telecoms in Africa

Connectivity & Digital Infrastructure

Content covering broadband, Wi-Fi, and robust network infrastructure to improve connectivity across the continent

Data Centres

Future proof your data centre infrastructure in Africa, with topics including sustainability, edge/cloud and AI

AFRICA TECH

The hub for technology, innovation, and enterprise growth

Main Stage

NEW

Insights from industry leaders on driving productivity, efficiency, and competitiveness with emerging technologies

Industries of the Future Stage

NEW

In-depth exploration of sector-specific technologies across finance, retail, manufacturing, and more

Cloud & Cybersecurity Stage

Securing the future: Innovations in cybersecurity and cloud resilience for a rapidly evolving threat landscape

Next Gen Talent

Where top talent meets opportunity

AFRICA IGNITE

Driving growth and impact in Africa's start-up ecosystem

Main Stage

NEW

Unpacking the latest trends, industries & opportunities in the start-up ecosystem

Founders Learning Hub

NEW

Equipping founders with the tools & skills to scale

Investor Lounge

An exclusive space for investors to connect & share insights

Pitch Showcase

NEW

A platform to discover the continent's most promising founders

THE AI SUMMIT CAPETOWN

Where commercial AI comes to life

Headliners Stage

Hear how key stakeholders are driving responsible innovation in the commercial AI space

Next Generation Stage

Spotlighting AI's cutting-edge- from new applications and code to infrastructure and advanced AI chips

AI at Scale Stage

Strategies for implementing and scaling AI technologies into your business

Data Excellence Stage

NEW

Focused on data scientists' needs: mastering data cleaning, augmentation, and governance

2025 Themes Include

AFRICA COM

- Bridging the Digital Divide - Digital equity & inclusion
- Emerging Technologies spearheading the future of telecoms
- Empowering Infrastructure with next-gen data centres
- Improving Connectivity in Africa with satellite technology
- Transforming OTT services, media, broadcast and entertainment for the digital age
- Networks of the Future - pioneering connectivity in Africa

AFRICA TECH

- Corporate Innovation – How enterprises are leveraging tech to stay competitive
- Cybersecurity & Cloud – Protecting digital assets and ensuring resilience in a data-driven world
- Fintech & Digital Payments – The future of financial innovation and transactions
- Smart Retail & E-Commerce – Tech-driven strategies for scaling retail and supply chains
- The Future of Manufacturing – Automation, IoT, and AI revolutionising production
- SME Tech & Growth – Digital tools helping SMEs scale, access funding, and compete globally

AFRICA IGNITE

- Unlocking Capital – Exploring new funding pathways for VCs & Founders
- Bridging Early-Stage Gaps – Strengthening Angel and VC pipelines
- Funding Female Founders – Closing the gender investment gap
